

APPENDIX E-316 P

LOGISTICS ASSET SUPPORT ESTIMATE (LASE) REPLY/REJECT LISTING

1. PURPOSE

This appendix is applicable to chapter 59 and describes the processing of LASE Request Transactions, DIC DTA (appendix B-304), and LASE Followup Request Transactions, DIC DTD (appendix B-307), process. This processing mechanically prepares and daily generates all replies/rejects: DIC DTB, asset reply (appendix B-305); DIC DTC, backorders (appendix B-306); DIC DZG, rejects (appendix B-260) to the requesting Service via DAAS and prepare a printout listing all data on the appendix F-286, LASE Reply/Reject Listing.

2. APPENDICES USED IN THIS PROCESS

- a. Appendix A-123, Reject Advice Codes.
- b. Appendix B-260, Transaction Reject Transaction, DIC DZG.
- c. Appendix B-304, LASE Request Transaction, DIC DTA.
- d. Appendix B-305, LASE Assets Reply Transaction, DIC DTB.
- e. Appendix B-306, LASE Backorders Reply Transaction, DIC DTC.
- f. Appendix B-307, LASE Followup Request Transaction, DIC DTD.
- g. Appendix F-286, LASE Reply/Reject Listing.

3. RESPONSIBLE ORGANIZATIONAL ELEMENT

The designated processing personnel of ORC 94, MSO, DSO, is responsible for actions, procedures, and processing herein described and required.

4. PROCEDURES/INSTRUCTIONS

a. The responsible processing personnel (ORC 94) will review the listing to ensure that only authorized activities as delineated in chapter 13, DoD 4140.22-M, MILSTRAP, are submitting LASE Requests/Followups. Questionable unauthorized submissions and/or unauthorized submissions causing unnecessary, burdensome workload as determined by the processing DSCs, will be reported to DLA via letter accompanied by appropriate supporting documentation/backup.

b. The responsible processing element will additionally research the listing for clarification in response to Service of mechanically generated LASE replies and/or rejects. The daily listing will be retained for utilization by the responsible personnel for at least 90 days; then file and/or destroy as needed/required.

c. All activities/Services which are authorized to submit LASE requests are delineated in DoD 4140.22-M, MILSTRAP, chapter 13 as well as in DoD 4000.25-D. The responsible Service/activity is responsible for maintaining a current updated RIC and DoDAAC at all times to the DSCs. The DCSs are responsible for maintaining the updated, current SCAF for all authorized Services/activities to include the Special Customer Code L for those authorized LASE requesters.

d. Management control of authorized activities will be maintained and monitored by the Requirements Branch, Directorate of Supply Operations, HQ DLA who will publish/revise listings as required.

e. It is the responsibility of the designated personnel at each DSC to update and maintain an accurate, current SCAF, current RICs and DoDAACs to the DoD MILSTRAP System Administrator for those listed authorized Services and activities and all changes thereto. A Special Customer Code L is required in the SCAF at the DSCs for each of the authorized Service/activity DoDAAC address as well as all current management data required and necessary to DAAS utilization.

## 5. FLOWCHART

Flowchart not required.
